AMR ASHRAF SERAG ELDIN

SENIOR FULL STACK DEVELOPER

Phone: +201092237499 | Email: amrcs1992@gmail.com | Linkedin: amrashrafserageldin92 | Github: amrcs92 | Portfolio: amrcs92.github.io/portfolio

PROFESSIONAL PROFILE

Senior Full Stack Developer with 5+ years of experience building scalable web applications and APIs. Expert in Laravel and modern JavaScript frameworks (Next.js, React, Vue.js), with deep experience in API architecture, real-time systems, CMS integrations, payment gateways, and multi-language platforms. Leverages AI tools (Claude AI, ChatGPT, Claude Code) to accelerate delivery, improve code quality, and streamline documentation, and has shipped two Android apps end to end through an AI-directed development workflow.

WORK EXPERIENCE

Monglish International Academy & Edulixa360

Jun 2024 - Present

Senior Full Stack Developer

- Built and maintained the Commerce API (centralized data center) using Laravel, Redis caching, Stripe payment integration, Google Sheets API, Swagger/OpenAPI documentation, and Sentry error monitoring.
- Developed the Edulixa Backend — a multi-platform admin dashboard for Monglish & Edulixa360 with Spatie Permission (RBAC), Spatie Activity Log, OpenAI PHP client integration, GeoIP2 analytics, and GuzzleHTTP.
- Built the Marketing Calendar System (backend + frontend): Laravel API with Microsoft Graph API for Office 365 calendar sync; React + Vite frontend with Recharts, Radix UI, and Framer Motion.
- Developed a real-time Marketing Internal System using Laravel Reverb (WebSockets) and Pusher on the backend; Next.js + Laravel Echo frontend with drag-and-drop boards, Recharts dashboards, and PDF/Excel export via jsPDF.
- Built the Monglish public website using Next.js (App Router), Strapi headless CMS, next-intl for multi-language support, Tailwind CSS, and Jest unit tests.
- Developed the Edulixa360 website in Next.js with Zustand state management, React Hook Form + Zod validation, Recharts analytics, multi-language (next-intl), and shadcn/ui component library.
- Created multiple landing pages (AI4Teachers, Monglish Kids 360, Investment, Solidarity) using Next.js and Vue.js (vue-router, vue-i18n, Vite).
- Built form-based web applications (Monglish Got Talent, Student Survey) in Next.js with resumable file uploads via tus-js-client and Zod form validation.
- Led the development team, managed system architecture, code reviews, and CI/CD deployment pipelines via GitHub Actions.

US Legalization

Jul 2019 - Jul 2024

Full Stack Developer

- Developed a Laravel web application for uslegalization.com, integrating FirstData payment and FedEx shipping APIs, with a document order timeline, shopping cart, invoice mailing, and admin panel.
- Created a WordPress web application for usapostille.com with a custom theme and FirstData/FedEx integrations.
- Built a Laravel web application for acma.us with product upload via Excel, digital signature, FedEx shipping API, and multiple payment methods.
- Developed custom order form plugins for onedayapostille.com, dcapostille.com, and california-apostille.com, integrating Stripe payment and FedEx shipping APIs.

IT Wolf Solutions

Jun 2017 - Feb 2018 (8 months)

Junior Software Developer

- Developed 'Saydality', a patient & pharmacy web & mobile app using CodeIgniter, Bootstrap, and Ionic 3.
- Developed Taxi Masr, a fare-counter mobile app using Ionic 3.

KAUMEYA Language School
Nov 2015 - Nov 2016

Web Developer / Data Analyst

- Served as WordPress specialist and designer; analyzed student grades, generated charts, and managed data entry in Excel.

PROJECTS

Dawa2 – Offline Medication Reminder (Android)
Oct 2026

Product Owner & AI-Directed Developer | amrcs92.github.io/dawa2-site

- Designed and shipped a private, offline medication reminder for Android with real full-screen alarms that keep ringing until the user answers Taken, Snooze, or Skip; bilingual English/Arabic with no accounts and no cloud data.
- Built with Expo, React Native, Kotlin, and SQLite through an AI-directed workflow: wrote the product spec with ChatGPT, selected the UI from Claude Design mockups, directed Claude Code through a milestone-based implementation plan, and tested on the emulator and physical devices before each signed APK release.

Fakkerni – Arabic-First Alarm & Reminder App (Android)
Oct 2026

Product Owner & AI-Directed Developer | amrcs92.github.io/fakkerni-site

- Built an Arabic-first, fully right-to-left (RTL) alarm and reminder app: offline reminders, medication tracking with dose logging and refill alerts, and encrypted backups to Google Drive via Google OAuth.
- Delivered across 10+ milestones with the same AI-directed workflow (spec, UI mockups, Claude Code implementation, real-device testing) using Expo, React Native, Kotlin, and SQLite; owned every product and release decision, now preparing for Google Play.

SKILLS & TECHNOLOGIES

Backend: PHP, Laravel, Laravel Sanctum, Laravel Reverb, Spatie Permission, Spatie Activity Log, Redis, MySQL, Swagger/OpenAPI, Sentry, OpenAI PHP Client, Stripe, Google Sheets API, Microsoft Graph API, GeoIP2, GuzzleHTTP

Frontend: React, Next.js, Vue.js, TypeScript, JavaScript, Tailwind CSS, shadcn/ui, Radix UI, Framer Motion, Zustand, React Hook Form, Zod, Recharts, next-intl, Strapi CMS, Laravel Echo, Pusher, jsPDF, Livewire, jQuery

DevOps & Tools: GitHub Actions (CI/CD), Git, Linux, Docker (basic), Sentry, Redis

CMS & Other: WordPress, RESTful API design, tus-js-client (resumable uploads)

AI Tools: Claude AI & ChatGPT for brainstorming and problem-solving; Claude Cowork for generating professional reports and presentations; Claude Code for implementation planning, technical documentation, and work organization; Claude MCP integrations for Jira task management and accelerating delivery; AI-assisted unit test generation; AI-directed development of production Android apps with Claude Code

CERTIFICATIONS

Information Technology Institution
2017

Full Stack Internship — Linux Fundamentals, DevOps, JavaScript, jQuery, PHP, MySQL, Bootstrap, AngularJS, Laravel.

EDUCATION

Arab Academy for Science, Technology & Maritime Transport
2014

BSc. in Computer Science (Major: Computer Science, Minor: Software Engineering) — Good

LANGUAGES

English (Excellent) **Arabic** (Mother tongue)
